

Queue Management Solutions

Maximise your Point of Sale with the Sierra Q-Buster.

The system comprises of two main components which can be used individually or combined together.

Our electronic queue guidance system directs the customer to correct cashier via a large 2 digit display with inbuilt audible announcement.

Our Staff Call System enables staffing levels at the serving position to be kept to a minimum.

Staff discretely call for supervisory assistance or additional cashiers as required.

No need to interrupt the sales transaction by walking away to make tanooy or telephone calls. Messages are sent at the push of a button.

Sierra's wireless technology is currently being used by a number of the UK's and European leading retailers and health care providers.

Both the systems use our proven wireless messaging technology which is designed to keep installation to a minimum.

Part of the range of systems designed and manufactured by Sierra.
